Shop-Cum-Office Plots: *The new avatar,* born in New Gurugram.

Mixed-use retail and commercial spaces have, to their benefit, a planned approach to their development. GK 1 & 2 market in South Delhi, the posh and plush Khan Market in New Delhi, the famed Sector 17 in Chandigarh and many more are some vivid examples of this concept.

While cities across India have continued to grow at a rapid pace, both in terms of population and infrastructure, only a few have had a planned, well-thought-through approach to an expansion like New Gurugram.

These Shop-Cum-Office (SCO) plots inherit the traditional concept of a marketplace, while offering the flexibility of owning a commercial land parcel with a plethora of common amenities, services and facilities that enable smooth functioning of the marketplace, while also assuring the premium associated with top Grade A developers.

What's more, one of the most unique features of these SCO plots is that the owner gets complete flexibility of developing the plot at his or her pace, depending upon the availability of funds, business expansion or increased demand for lease property. Simply put, it's acquire, build and grow as the demand increases and business flourishes.
